Claims Allowed

Claims 1-34 are allowable over the prior art of record. The claims are allowable because the prior art does not anticipate nor render obvious the claimed combination of a hybrid type vehicle drive control device, comprising: a generator connected differentially rotatably and mechanically to an engine; a generator fixing mechanism for stopping the rotation of said generator mechanically; braking state decision means for deciding a braking state by a braking brake; and release control means for releasing said generator fixing mechanism when it is decided that an abrupt braking has been performed, or: a hybrid type vehicle drive control device, comprising: a generator connected differentially rotatably and mechanically to an engine; a generator fixing mechanism for stopping the rotation of said generator mechanically; braking state decision unit that decides a braking state by a braking brake; and release control unit that controls releasing said generator fixing mechanism when it is decided that an abrupt braking has been performed.

No particular single feature of the claims renders the claims as a whole patentable. Only the claims taken as a whole combination is deemed new and unobvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Prior Art Discussed

The examiner has considered the reference cited by applicant in his Information Disclosure Statement filed concurrently with the application. The reference does not show all of the features of the claimed combination.

The references cited by the examiner are deemed pertinent to applicant's disclosure. Neither reference shows the feature of releasing the generator fixing means when an abrupt braking of the vehicle is detected.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dirk Wright whose telephone number is 571-272-7098. The examiner can normally be reached on Monday through Friday, 8AM-4:30PM.
